REVITALIZING THE SPIRIT
OF BRETTON WOODS

A Global Dialogue

*to honor 75 years of economic progress and
to revitalize the spirit of Bretton Woods
now and for the future*

THE

BRETTON WOODS COMMITTEE

THE CHALLENGE

As the historic milestone of the 75th anniversary of the Bretton Woods Conference comes into focus in 2019, the rules-based international economic system and its supporters face a significant challenge: **how to ensure the global economic system evolves and endures to meet the challenges of the next generation?**

OUR RESPONSE

Mobilize our global community of thought leaders to:

Help global leaders *envision how to evolve and strengthen* the current rules-based economic system and its collection of multilateral development and financial institutions.

Encourage and embolden policymakers to *recommit to the “spirit” of Bretton Woods* and the value of international economic cooperation as a fundamental force for global peace and prosperity.

BRETTON WOODS@75 GLOBAL DIALOGUE SERIES

A series of conversations to debate current and future issues impacting the Bretton Woods architecture, institutions, and the Bretton Woods Committee, including: conferences, seminars, roundtables, virtual conferences, focus groups, surveys, blog posts and more.

BRETTON WOODS@75 COMPENDIUM

A timely collection of 50+ essays from a globally-diverse subset of the Bretton Woods Committee's network of thought leaders providing recommendations for the future of international economic cooperation. Widely-disseminated among policymakers, influencers across the global development, financial, and trade communities, and throughout the Bretton Woods Committee membership.

BRETTON WOODS@75 GALA

A celebratory evening that honors 75 years of global economic progress, promotes the forward-looking ideas generated through the Bretton Woods@75 dialogue, and ensures the Bretton Woods Committee is poised to be effective in its mission for the next generation.

WHO'S INVOLVED

The Bretton Woods Committee is marshaling the shared wisdom of our prominent, influential, and globally diverse network of members and stakeholders who share the belief that international economic cooperation is essential and well served through strong and effective International Financial Institutions.
